

Aditya Jaiswal – Software Engineer

adi13jaiswal@gmail.com | +91 9794007462 | [Linkedin](#) | Mohali, Punjab | [Github](#)

PROFESSIONAL SUMMARY

AI Automation Engineer and Software Engineer Intern with hands-on experience in Robotic Process Automation (RPA), Agentic AI, and Machine Learning solutions. Skilled in developing enterprise automation workflows using UiPath Studio and Automation Cloud, building AI agents, integrating ML models, and developing data-driven applications. Strong foundation in Python, Machine Learning, Generative AI, LLMs, and workflow automation with a focus on improving operational efficiency and business processes.

PROFESSIONAL WORK EXPERIENCE

Auxiliobits Technologies Private limited

April 2026 - Present

Automation Developer

In Office

- Design and develop enterprise automation solutions using UiPath Studio to automate business workflows and repetitive processes.
- Build and deploy intelligent automation workflows leveraging UiPath Automation Cloud.
- Develop and configure AI-powered agents to streamline operational tasks and improve productivity.
- Create, train, and manage machine learning models within automation environments to enhance decision-making capabilities.
- Collaborate with stakeholders to analyze business requirements and implement scalable automation solutions.
- Perform testing, debugging, and optimization of automation workflows to ensure reliability and performance.

Edulyt India

May 2025 - July 2025

Artificial Intelligence Engineer

Remote

- Designed and maintained **end-to-end data pipelines** for ML workflows, covering data ingestion, cleaning, feature engineering, and model training.
- Built and optimized **classification models** using Python, Scikit-learn, and TensorFlow, improving validation accuracy by **25%**.
- Automated **ETL and exploratory data analysis** using Pandas and NumPy, reducing manual processing effort by **40%**.
- Applied **statistical techniques and hyperparameter optimization** (GridSearchCV, RandomizedSearchCV) to improve model reliability and iteration speed by **30%**.
- Deployed models as **REST APIs using Flask and Docker**, enabling real-time inference and integration with downstream applications.

CORE SKILLS

RPA & Automation: UiPath Studio | UiPath Automation Cloud | Workflow Automation | Process Automation

AI & GenAI: Agentic AI | Prompt Engineering | RAG | LLM Applications | AI Agents | Claude API

Machine Learning: Scikit-Learn | TensorFlow | PyTorch | Feature Engineering | Model Evaluation

Programming: Python | SQL

Deployment & Tools: Flask | FastAPI | Docker | Git | AWS | Postman

Data & Analytics: Pandas | NumPy | Power BI | Matplotlib | Seaborn | PostgreSQL

PROJECTS

Student Performance Metrics – Predictive Analysis Platform

Python | SQL | Scikit-learn | Flask

Live Demo: <https://mlproject-jpyy.onrender.com>

- Built a full analytics pipeline to transform raw student data into predictive insights.
- Developed regression models (**Linear Regression, Random Forest, XGBoost**) achieving $R^2 \approx 0.85$, analogous to LTV / churn prediction problems.
- Designed reusable data preprocessing and inference pipelines, deployed as a Flask web app for real-time predictions.

Math Mentor AI – Intelligent Decision System

Python | Streamlit | ML Pipelines

Live Demo: <https://aditya-j101-math-mentor-app-dvydip.streamlit.app/>

- Designed modular ML pipelines with automated evaluation and feedback loops.
- Improved prediction correctness by **~40%** through iterative optimization.

Air Quality Index Prediction – Time Series Forecasting

Python | Pandas | Scikit-learn | Statistics

Live Demo: <https://aditya-j101-air-quality-index-app-zsy75f.streamlit.app/>

- Developed **forecasting models (SARIMA, Prophet)** with $R^2 = 0.89$, applying statistical testing and correlation analysis.
- Identified key contributing variables through data mining and feature analysis.

EDUCATION

Amity University Noida

2021-2026

BCA - MCA (Dual), Information Technology | CGPA: 7.72

Noida

Certifications: *Anthropic* – Building with Claude API | *Anthropic* – Introduction to Agent Skills

UiPath – Business Analyst Associate | *Automation Developer Specialized AI Professional Training* | *Agentic Automation Developer Associate Training* | *Automation Developer Professional Training*

Amazon – AWS Cloud Practitioner

Udemy – Complete AI and Machine Learning, Data Science Bootcamp
